* If you use this lab, please be sure that the
potability test is their option "Std 2" and
request to include "lead, copper & ammonia".

New wells and replacement wells require the following tests: **Potability** & **VOC**, the sample must be collected by an agent of the lab.

Septic Waiver Hearings for well distance requires a Potability test, sample must be collected by an agent of the lab.

Title 5 Inspections with wells less than 100 feet to the existing septic system must be tested for bacteria, nitrates and ammonia by a MA Certified Laboratory. Home owner can not collect the water sample for testing.

Food & Retail Establishments requiring a Potability test for permit renewal: sample must be collected by an agent of the lab.

Westport, MA septic system projects and food establishments that require a water test must be collected directly by a Laboratory. The Lab listed below does not collect samples and cannot be used for these situations.
