Perspectives:

FWOL finished 2015 with a strong balance sheet, and we are on track to donate \$25,000 to the Library in 2016 as we did in 2015. Membership donations and book sale receipts are our major funding sources with an additional \$3,124 in 2015 from your Lees Market receipts. Thanks and applause to my fellow Library fans. The funds will be used for museum passes and children's programs, but most of it used to purchase books, CDs, and DVDs divided equally between adult and children/YA.

We have expanded our book donation period in 2016 to April through August. We will need returning and new volunteers to sort thousands of books and sell them at our Summer Paperback Sale and our huge September Annual Book Sale. Please check the **Events page** for more detail and the **'You can help'** column for volunteer opportunities to make these successful. More than twenty volunteers joined board members last year to help with the book sales. Many hands make light work and good fun.

Director's Update:

On a winter's day at the Lakeville Public Library, librarians, library trustees, and friends of libraries gathered with Representative Paul Schmid and legislators from forty area communities for the 4th Annual Southeastern Massachusetts Library Legislative Breakfast.

Our very own state senator, Michael Rodrigues, was the keynote speaker, followed by SAILS Network Administrator Debby Conrad, who described how the Commonwealth's library networks—and the library staffers and patrons who use them—provide the infrastructure of our library system.

Diane Carty, director of the Massachusetts Board of Library Commissioners, described the still-unmet needs for investment in digital technologies, while a number of library directors shared success stories brought about by local and state funding. Library representatives and state legislators mingled throughout the event, sitting side-by-side as they discussed a variety of issues and potential solutions.

Your voice counts, especially when you tell your friends, family, and community why you love and value your library. And, as is evidenced by their attendance at this annual event, our legislators do care about what is happening in our community—and your hand-written note, email, or phone-call lets them know that you care.

You are also welcome to attend meetings of the Friends of Westport Library and the Library Board of Trustees—both are open to the public and those gathered there would love to hear from you. Together, we may all continue to benefit from the "Common"-wealth of resources at our fingertips.

A Chat with...John Medeiros, Westport Library Maintenance

By Denise Micale

You are the "behind the scenes" person who keeps this library physically up to snuff and welcoming to all of us. In terms of FOWL, you are also our secret weapon in getting the majority of our books for the fall booksale from the library over to our storage pod.

How long have you been here at the library?

It's hard to believe, but it's been eighteen years. My schedule is twenty hours here at the library and twenty hours at the Westport Council on Aging located on Reed Road. Many years ago, I went to junior high in that building. It's great that it is still in use.

Sounds like you might be a Westport native.

Actually, I was one-year-old when my family moved here. My dad was from Dartmouth and my mother from Fall River. My grandfather was a whaler in New Bedford who sailed for about five to ten years, then left to buy a farm in Dartmouth. I am number six out of seventeen children; most of them still live in the area. After high school, I was in the Army and went to Germany for a few years. My wife, Louise, and I have been married forty years.

Where did you pick up your skills for your work here?

Before working for the town, I worked at the Durfee Union Mills in Fall River doing maintenance and construction work. It was a challenging job in that it required a wide variety of different skills, including plumbing and even glazing those big windows found in old mills.

Do you have any hobbies or interests when you are away from work?

Listening to rock and roll music is one of my favorite things to do. I was fortunate to see Led Zeppelin in 1972; ten tickets in the fourth row cost a total of \$65. New England sports also interest me, especially the Patriots. In summertime, I enjoy being the grill master at our house.

Since you work here at the Library, I have to ask what you like to read.

I'm not much of a book reader, but do enjoy reading the *Standard Times* and the *Herald News*, especially the sports sections.

What is different and what has remained the same through the last eighteen years in your job here?

The weather is the thing that seems to have changed the most. Last year it was a big challenge to find a place for all that snow. The people are the same; we have great people here in Westport. I love working for the Town and never mind working hard in this job.

World of Books

Untoward Garden Books: A Sampler

By Suze Craig, Westport resident and Editor, @ the Library

Spring, and the mind turns dirtward. Gardening authors abound but these three merit special attention.

Sharon Lovejoy delights in compendiums. Her expertise covers both indoor and outdoor gardening, accent on the latter. Last summer, I would have given my eyeteeth for a tip I winnowed this winter out of her *Trowel and Error: Over 700 Shortcuts, Tips, & Remedies for the Gardener*.

To trap the Sunomo wrestler groundhog that nightly decapitated our carrot tops and lima bean seedlings all I should have done was place in the Have-A-Heart not peanut butter and Fluff (to which he eventually succumbed), but rather, writes Lovejoy, a few choice lettuce leaves topped with pure (therefore expensive) vanilla extract. Would have had far fewer moribund carrots and spent less time swearing and rebaiting the trap.

Another interesting writer is Carol Deppe, who gardens (with a lethal peasant hoe and a degree in molecular genetics) in Oregon's Willamette Valley. Consult her *The Tao of Vegetable Gardening: Cultivating Tomatoes, Greens, Peas, Beans, Squash, Joy and Serenity* for, among other matters, a list of the most flavorful tomatoes, arranged by maturity time and late blight resistance. Like many of us who enjoy peak of season tomatoes, she's especially concerned by the ever increasing late blight scourge.

And hooray, she waves the flag for the lazy gardener. There's a special section labeled "On Not Tilling, Digging, Mowing, or Tending Absolutely Everything"; what a relief that someone, in print no less, thinks as I occasionally, exhaustedly, do.

For a tongue in cheek assessment of the gardening experience, find Karel Capek's *The Gardener's Year*, published in 1931, translated from the original Czech and as witty and apt today as it was then. Even non-gardeners will find him amusing and instructive. For those who struggle to put away garden tools as winter looms his hose discourse is particularly poignant. "...until it has been tamed a hose is an extraordinarily evasive and dangerous beast, for it contorts itself; it jumps, it wriggles, it makes puddles of water, and dives with delight into the mess it has made; then it goes for the man who is going to use it and coils itself round his legs; you must hold it down with your foot and then it rears and twists round waist and neck, and while you are fighting with it as with a cobra, the monster turns up its brass mouth and projects a mighty stream of water through the windows on to the curtains which have been recently hung."

You can find all the above in either SAILS or the Commonwealth Catalog, or to those in the know, the ComCat.

Mystery Spotlight

Lee Child

By Carol Vidal

Upon hearing numerous praises (mostly from men) about Lee Child's novels, I decided to try his first book out of curiosity but with no great expectations. I thought this would be another "guy" book with lots of explosions, murders and espionage; the sort of books in the same vein as Clive Cussler. Since I mainly favor female mystery writers, this was definitely branching out on my part. Sometimes it's good to try something different.

Now that I've read a few of Child's books I find that I prejudged Lee Child too harshly. Child's books are based on one person, Jack Reacher. The name Jack Reacher may make you think of the movies with Tom Cruise but the fictional Reacher is a 6 foot 5 inch, 230 pound, former military policeman who drifts around the country inevitably running into all manner of situations. Reacher has a strong moral compass and a penchant for finding trouble.

Since Reacher was a former military policeman, he is expert in crime solving. He is a rough and ready type of guy who is thrust into a civilian world he doesn't quite understand or fit into. He's accustomed to the military way and rules but now must deal with situations in the unstructured real world as best he can. With no obligations and commitments, Reacher is his own person and not swayed by others. He travels with no suitcase, only the clothes on his back and a toothbrush in his pocket. Each novel draws on Reacher's ability to analyze and react to the mystery that confronts him.

Child's books do not necessarily have to be read in order but I would recommend it. I began with his first novel, *Killing Floor* published in 1997. Each book has a new premise so each novel can also be read as a stand alone also. *Killing Floor* is a good place to start because it gives the reader an overview of the details about Reacher's life that carry over to the other books.

Child's novels are entertaining and well written. I look forward to the next book in the series. They are definitely worthy of consideration. If you like them, there is no shortage of books since the latest book *Make Me* is number twenty.
