on Monday the ninth day of March next, it being the second
Monday of said month, at ten o'clock in the forenoon then and
there to choose the following officers, viz: one Selectman,
one Assessor, one member of the Board of Health, two mem-
bers of the School Committee, one Fish Commissioner, two
Trustees of the Free Public Library, each for three years;
also the following officers for the year ensuing, viz: four
Landing Commissioners, one Tree Warden; one member of
the Planning Board for five years; one member of the Hous-
ing Authority for five years; also to vote on the following
question, viz: "Shall the town in addition to the payment of
fifty per cent of a premium for contributory group life and
health insurance for employees in the service of the town and
their dependents, pay a subsidiary of additional rate?" all to
be voted for on the official ballot. And to assemble at the High
School Auditorium on Tuesday the seventeenth day of March
next, it being the second Tuesday after the second Monday of
said month at 7:30 in the evening, then and there to act on the
following articles, viz:

ARTICLE 1. To determine the salary and compen-
sation of all elected town officers.

The following resignation was received and recorded.

May 1, 1970

Dear Sir:

I plan to return to college this summer in full-time capacity working for my Masters Degree in Education.

With this undertaking, I feel I will not have enough time to complete or fulfil my duties as a member of the Westport School Committee.

I therefor submit my resignation to become effective May 30, 1970.

Thank you,

Michael W. Baker

SPECIAL TOWN MEETING

Westport, Massachusetts
December 10, 1970

Agreeable to the warrant calling said meeting the voters of the Town of Westport assembled at the High School Cafeteria on the above date. The meeting was called to order by Carlton A. Lees, Moderator.

Voted: (Unanimously) to dispense with the reading of the warrant.

ARTICLE 1. Voted: (Unanimously) that the town appropriate from unappropriated available funds in the Treasury, the sum of \$2,614.75 to be used for purchase of hydraulically operated sanding equipment, for use by the Highway Department, which equipment will replace 1-chain driven sander which is no longer useable.

ARTICLE 2. Voted: (Unanimously) A.--that the town appropriate the sum of \$10,000.00 in addition to and supplemental to the \$1,331,502.83 which was appropriated under Article 3 of the Annual Town Meeting in March 1970, for support of schools, said \$10,000.00 to be transferred from unappropriated available funds in the Treasury. B.--And that the town appropriate, for support of schools, only, the sum of \$18,721.00 which sum has already been received and is presently available, in the account, "Title I Federal Funds, PL 874, Voc. PL 88-210 Federal Funds".

ARTICLE 3. Voted: (Unanimously) that the town appropriate the sum of \$3,521.77 for Insurance on Town Employees, under Chapter 32B of the General Laws, which sum is in addition and supplemental to the \$27,500.00 appropriated under Article 56 of the Annual Town Meeting. The sum here appropriated, to be transferred from unappropriated available funds in the treasury.

ARTICLE 4. Voted: (Unanimously) that the town appropriate the sum of \$8,000.00, in addition to and supplemental to the monies appropriated under Article 3 of the Annual Town Meeting in March 1970 and Article 4 of the special Town Meeting, May 26, 1970, for Police Protection, said \$8,000.00 to be transferred from unappropriated available funds in the treasury.

ARTICLE 5. Voted: (Unanimously) to raise and appropriate the sum of \$390.00 to pay a damage claim against the Town of Westport and to meet said appropriation the above named sum be transferred from available funds in the treasury.

ARTICLE 6. Voted: (Unanimously) to raise and appropriate the sum of \$414.80 in accordance with Section 11, Chapter 660, Acts of 1948 for Gypsy Moth Work and to meet said appropriation the above named sum be transferred from unappropriated available funds in the treasury.

Voted: (Unanimously) that we now adjourn.

Town Clerk

REPORT OF BOARD OF SELECTMEN

The Board organized on March 14, 1970 with Russell T. Hart as Chairman, J. Douglas Borden as Clerk, and other member Alford Dyson.

The year 1970 proved to be a productive year. It saw the Fire Department move into the first town owned fire station at Briggs Road and Route 88, a new middle school at Old County Road, and the construction of a new Public Library at the same site.

In 1970 \$800,000.00 was approved for the Housing for the Elderly. \$20,000.00 of State money was used to enlarge our docking facilities and dredging at Westport Point. We expanded our telephone service by four more trunk lines coming in and three additional trunk lines going out of Westport.

The Board acknowledges and welcomes our new State Senator, Mary Fonseca, and would like to commend Representative John J. Long for his conscientious support of our program in the Legislature.

The Department of Natural Resources has recently announced that a one hundred unit camp site will be constructed at Horseneck for day campers and trailers.

The Federal Census reports Westport to have a population of 9,791 which shows an increase of 47% in the last ten years. With this increase in population, problems have come proportionately. We notice an increase in police calls, fire calls, an additional burden on the assessors and tax collector. School building, busses, a necessity for recreational facilities, roads, and other services too numerous to mention, have burdened all of our departments geared to small town standards.

The Board still has perennial drainage problems too large for a \$2,000.00 drainage account to handle, duplication of engineering which leads this Board to advocate the establishment of an engineering department to consolidate the various departments needs.

We would like to note from our observations that our Home Rule is rapidly disappearing and State and Regional encroachment is alarming.

We wish to call attention to the townspeople the need for enlarging the quarters of our Police Department. As our police force grows with our population trend the present head-quarter space in the town hall is inadequate.

In conclusion we wish to thank our many citizens who serve on committees appointed by our Board and spend many hours in the interest of our community.

The Board of Selectmen respectfully submit the following report from their records of the past year.

The year 1970 marked a milestone in the existence of the Westport Free Public Library. At the special town meeting held May 26, 1970, the citizens of Westport, realizing the imperative need, voted the funds to build and equip a new library building on Old County Road. A Federal grant of \$70,000 under Title II of the Library Services and Construction Act, to be applied to the construction costs has been awarded and accepted by the town.

The new building should be ready for occupancy in the late spring.

The use of the library continues to grow. There was a 13% increase in circulation this year. The trustees and staff eagerly anticipate the expansion of its activities once the library becomes established in its new home with proper space and new equipment.

The staff is to be commended for its continued excellent effort this past year under the most restricted conditions. Every effort has been made to accommodate the public. The patrons have been able to borrow books, films, and audio-visual materials from the New Bedford and Boston Public Libraries through the Eastern Regional Library System of which our library is a member. Story hours have been held throughout the year. Book distribution to the shut-ins and Senior Citizens has been continued.

In anticipation of adequate shelving space, the librarian has purchased new reference material which will be made available in the new building where there will be every accommodation for the student to study and research and the browser to relax and read.

The Friends of the Library were most helpful in distributing information and publicity to inform the voters of the building plans prior to the town meeting. Their interest and assistance will be a most welcome asset in our projected programs.

The members of the Library Building Committee which includes, in addition to the trustees, Mrs. John I. Babbitt, Mr. William Bishop, Mr. Nicholas Ciarlone, Mr. Carl Erickson, Mr. Octave Pelletier, have given most generously of their time and thought in order that the library building project might reach its goal of giving the Town of Westport the facility it needs.

Respectfully submitted for the Trustees
of the Westport Free Public Library,

Harriet A. Barker, Chairman

RIVER IMPROVEMENT COMMISSION

The River Improvement Commission made significant progress during the past year. Its activities, in a number of incidents, have moved from investigations and studies of pollution into the corrective action phase. The \$1,500 appropriated by the town at its annual town meeting enabled the Commission to employ a graduate student during the summer to investigate a number of pollution sources. After taking numerous samples from six areas of the East and West branches he reported "the general pollution situation appears to be of moderate proportions, but with some heavy localized organic outflows." His full report, containing exact locations and specific amounts of pollution discovered, was turned over to the Town's Board of Health and the Massachusetts Water Pollution Control Division with requests that they take immediate action to eliminate the pollution sources.

A \$10,400 grant was obtained from the New England Regional Commission for a one year program of ecology and pollution investigation in the river by the University of Massachusetts. This study will be carried on until September 1971, and additional grants are being sought to continue these studies as well as to implement their recommendations. Additionally, the Corps of Engineers, the Department of Interior, and SMU are currently conducting studies in the river.

This Commission continues to be concerned over the relatively small but numerous pollution sources, many shellfish problems, large algal growth, lack of adequate spawning areas, and heavy river siltation. It is this Commission's belief that, although these problems are approaching a dangerous level, they are still within the range of relatively fast corrective action, and, except for the siltation problem, with the full cooperation of town, state, and federal officials they can be solved in a reasonable time and without large expenditures of funds.

Respectfully submitted,

George M. Hall, Chairman

WESTPORT YOUTH ACTIVITY BOARD

Westport Board of Selectmen
Westport, Massachusetts

Mr. Russell T. Hart, Chairman:

The Westport Youth Activity Board hereby submits its Annual Report for the year 1970.

The girls athletic programs were, again, directed by Miss Joan Chace. She conducted successful programs in basketball, volleyball, softball, trampoline and indoor hockey. The latter two programs having been inaugurated in 1970. Due to the increased attendance in the girls programs the Board named Miss Marilyn Ritz to assist Miss Chace.

Our thanks to all those who assisted the Misses Chace and Ritz in conducting these programs.

We were unsuccessful in conducting a Charm and Poise course for the Senior and Junior girls despite the services of a very able director, Mrs. Philip Desruisseaux. The failure to present this course was due to the lack of cooperation of the participating girls. We will offer this course again in 1971 but to girls of younger ages.

The boys basketball program, directed by Mr. William Mello, was again a success with 85 boys participating. Due to illness we will not have the services of Mr. Mello in 1971. We wish him well and thank all those who assisted him. The format of the 1971 program will be completely changed.

Due to our inability to secure the services of a director for the boys baseball program, it was conducted under the direction of the Board. It was, however, another successful season. The program was expanded this year to accommodate a fifth team because of the increased enrollment. Our congratulations to the Champion Tigers coached by Mr. Urbain Pariseau and thanks to all the managers, their assistants and all the umpires.

Mrs. Joel Flathers directed a successful swimming program for 218 youngsters. The program was, again, held at the Town Beach at the Point and at Holly Hill Acres in North Westport.

Our thanks to Mr. George Graham for his continued generosity in allowing us the use of Holly Hill Acres. Due to a question regarding Watuppa Pond being contaminated, the classes held at North Westport were moved to the Point for the last two weeks of the program. A water show was held on the final day of the program at which time all the youngsters were awarded certificates of advancement or participation. It was very pleasing to see so many parents in attendance.

Approximately 30 boys were active in a soccer program under the leadership of Mr. Antone Rego and we are thankful for those who assisted him. It is anticipated that we will be able to attract more boys into this program.

We have requested additional funds for 1971 to implement a supervised playground program and to conduct a soapbox derby and a cross-country race.

This is in keeping with our goal of expanding our program until we have 52 weeks of activity for Westport's youth. In addition we have met with student representatives of the High School in an effort to learn how we may better serve their needs. We have also met with the police department to be assured our programs are of a nature so as not to contribute to the growing youth problems of our suburban town.

We wish to express our sincere gratitude to the School Department, for without their complete cooperation we would be unable to present most of our programs.

Respectfully submitted,

REPORT OF THE TOWN CONSERVATION COMMISSION

Board of Selectmen
Westport, Massachusetts
Mr. Russell T. Hart, Chairman

Gentlemen:

The Westport Conservation Commission reorganized with Normand H. Sasseville, Chairman, George Medeiros, Vice-Chairman and Octave D. Pelletier, Secretary. Other members are William G. Heath, Rev. Jones B. Shannon, Andre Latessa and Theodore H. Vincent who was appointed during the year.

During this year, the Commission had a road built on the former Helen Tripp property to provide easier access to the ocean beach area.

Our program of fertilizing and erosion control continued in the Horseneck Conservation area.

Long range planning for the development of natural resources continued throughout the year with the second edition of Westport Conservation Plan due to be published in 1971.

We regret the loss of Mrs. Sarah Delano from the Commission's ranks. In recognition of the years of dedicated service she was voted the Commission's first honorary membership.

During 1970, the by-laws of the Commission were revised.

The Commission appreciates the continued cooperation of the town officials and of interested citizens.

Respectfully submitted,

Normand H. Sasseville
Chairman

CIVIL DEFENSE

Board of Selectmen
Westport, Massachusetts
Mr. Russell T. Hart, Chairman

Gentlemen:

During the past year we have had eighteen members of Civil Defense complete the Rescue and Radiological monitoring courses.

We have also six firemen, four policemen, 5 members of the rationing board, and six Civil Defense personnel who have taken the "Staff College home study course, Civil Defense U.S.A. " This is a "self-teaching programmed instruction."

Classes in Radiological, shelter management, medical self help, First Aid, and Civil Defense nursing care, can be taken by groups and organizations simply by contacting Mr. Charles M. Arruda, Director of Civil Defense at 636-8822, and make the necessary arrangements.

The emergency warning system is still tested at 11:15 A. M. on Wednesdays.

During the year 1970, Civil Defense has acquired for the Town such equipment as; 1 jeep, 5 generator sets (one in Main Fire Station on Briggs Road, 1 on the Amphibious Vehicles, 1 at the highway department, 1 in the Hospital, and one to be installed in the other amphibious vehicle.) 1 Jeep fully equipped including snow plow, 75 new crash helmets, 1 air compressor for use by Fire Department, Police Department & Diving equipment, 1 air compressor at the Cemetery Department, and 5 monitoring stations. Actual Federal Government figures show that, the town has acquired \$15,000.00 with a cost to the town of \$642.00. Federal reimbursement from the Federal Government for administrative and personnel expenses was \$950.00.

Sincerely,

Charles M. Arruda
Director of Civil Defense

REPORT OF THE PLANNING BOARD

Mr. Russell T. Hart, Chairman
Board of Selectmen
Westport, Massachusetts

Dear Sir:

Herewith is the report of the Westport Planning Board for the year 1970. This being the 14th year of the Board's establishment under Chapter 41, Section 81A to 81 NN of the Massachusetts General laws.

The Planning Board was organized as follows:

Warren M. Messier, Chairman	Term Expires 1971
Arthur V. Tripp	Term Expires 1972
William Ferreira	Term Expires 1973
Claude Ledoux, Secretary	Term Expires 1974
Theodore J. Moore	Term Expires 1975

During the year, the Planning Board held 15 public hearings in connection with the work on the Board.

A total of 30 regular and four special meetings were held during the year. The Board also met 15 Monday nights and 13 Wednesday nights during the months April through November to up-date subdivision rules and regulations, the Master Plan, and board business for a total of 62 meetings.

The Board was active in working with the Up-Dating Master Plan Committee with T. J. Moore as its Chairman.

Mr. William Ferreira represented the Planning Board as a member of the Westport Middle School Building Committee.

Planning Board members met with the Board of Selectmen a few times to discuss problems confronting the Board as it affected Town Government.

The Board has acted on 1359 lots; 657 lots have been approved, the remainder are in a preliminary stage. 163 lots were stamped "Approval Not Required." In 1969 and 1970, a total of 1504 1/2-acre lots have been submitted to the Planning Board for approval.

T. J. Moore was elected to represent Westport as a delegate to the Southeastern Regional Planning Commission. Claude Ledoux was elected as delegate to the Conservation Commission with Arthur V. Tripp as his alternate. Arthur V. Tripp was elected as delegate to the Soil Conservation Board.

Sincerely,

Warren M. Messier
Chairman

UPDATING MASTER PLAN COMMITTEE

The Updating Master Plan Committee was authorized and established by Article 40 of the Annual Town Meeting Warrant. Its activities were financed by a \$3,100 appropriation, and it was charged with updating the present Master Plan and making recommendations on implementation of this updated plan report. Its members were appointed on May 13, 1970, and immediate action was taken to arrange a matching fund contract with the Southeastern Regional Planning and Economic Development District. The Committee and SRPEDD exerted considerable effort over a five month period in producing land use maps of Westport and a basis for proper town zoning and zoning by-laws. Due to the fact that the overall project was much larger than originally anticipated and the fact that SRPEDD was unwilling to comply with the wishes and instructions of this Committee, it proved impossible to comply with the schedule and reporting dates. At least one more year will be required to complete this project.

The Committee agreed that the goals for the future growth of the town should be the continual maintenance and development of the community as a rural, agricultural, recreation, and open space area. Since our beautiful river and Horseneck Beach area are two of the finest natural resources in New England, our goals encompass protective ordinances which would inhibit medium and high density housing, at least until such time as the town has public water and sewage, and trailer parks and narrow lot sizes. This Committee is, therefore, dedicated to preserving Westport's natural resources and attractiveness as a rural, agricultural, and recreation community by opposing urbanization pressures.

George M. Hall
Chairman

GREATER FALL RIVER VOCATIONAL SCHOOL DISTRICT

The Greater Fall River Vocational School District can look back with pride on its record of accomplishment during 1970 as the school witnessed a continued growth in enrollment and programs both in the day program and in the evening program. As of October 1, 1970 there were 798 students enrolled in Diman Regional Vocational Technical High School; 107 students enrolled in Diman Regional Technical Institute; and 103 students enrolled in Diman Regional School of Practical Nursing. This makes a total of 1,009 students enrolled in our day program.

In addition we have 451 adults enrolled in our evening programs and 150 adults enrolled in programs offered by the Fall River Power Squadron. The latter program is offered one night per week.

The school continues to conduct programs for unemployed and under employed adults under the Manpower Development and Training Act.

To accommodate the ever increasing numbers of people seeking occupational education the school is in operation from 8:00 A. M. to 10:00 P. M. during the school year and 8:00 A. M. to 3:00 P. M. during the summer months.

Newer programs inaugurated during the school year were a four year program in Plumbing at the high school level; a short unit course in Homemaking and Home Health Aide for adults (offered in the afternoons); and a six month accelerated program for practical nurses licensed by waiver.

We are particularly proud of the latter program which was funded under MDTA as we will train eighty women, ranging in age from thirty to sixty years, for licensure. When they pass the examination for licensure most of them will receive higher paying jobs.

The demand for health programs continues to grow and we are happy to note that since our program for practical nurses was started in 1959 we have graduated 515 students - a truly remarkable record when we consider the fact that our first graduating class consisted of fourteen students.

Our dental assistant program was evaluated by the American Dental Association during the week of October 6, 1970 and we expect to receive full accreditation for this program in the near future. At the present time we have been given a temporary accreditation.

During 1970, the District received \$250,813.00 under Public Law 90-576 the Vocational Education Act of 1968. Most of this money was to be applied to teachers' salaries and was granted to the District in fulfilling a commitment made when the regional school district was organized.

On June 15, 1970 the District received \$305,329.00 from the Economic Development Administration. This sum was the final payment of the \$3,053,000.00 grant given to the District for constructing and equipping the school.

Also in 1970 we received \$221,431.00 from the Division of Occupational Education as our share of the 50% reimbursement for maintenance of vocational schools under Chapter 74 Section 9 of the General Laws Relating to Education.

In this Annual Report it is most important to point out that all communities in the regional school district benefit financially because they are members of a regional school district. In 1969 Fall River received \$303,053.00; Somerset received \$22,777.00; Swansea received \$39,126.00; and Westport received \$15,167.00.

In 1970 Fall River received \$440,954.00; Somerset received \$39,342.00; Swansea received \$67,645.00; and Westport received \$23,983.00. In addition to these amounts already received Fall River will receive an additional \$65,272.00 making a total of \$506,226.00; Somerset will receive an additional \$5,824.00 making a total of \$45,166.00; Swansea will receive an additional \$10,014.00 making a total of \$77,659.00; and Westport will receive an additional \$3,551.00 making a total of \$27,534.00.

It is important to note that these monies are sent directly to the communities not to the regional school district and that these monies are an additional 15% state aid given only to communities who are a part of a regional school district. This money can be applied to each community's share of operating the regional school district. However, there is no restriction as to its use by a community.

In 1969 we proposed that programs in special education be developed on a regional basis. While I regret that no definite program in special education has been started, I am happy to report that an application has been submitted to the Division of Occupational Education requesting federal funds to start such a program in September of 1971. If our application receives a favorable response, we should make every effort to inaugurate this program in 1971.

In 1970 we have offered the use of our facilities to the communities comprising the regional school district. In some areas our offer was accepted and this has worked to the mutual advantage of the school and the communities. We would like to expand on this effort in 1971 particularly in the area of computer usage.

As superintendent-director, I am proposing that, in September of 1971, Diman Regional Vocational Technical High School inaugurate a program of building one house per school year. Such a program would be a natural outlet for the skills we are teaching in our carpentry, electrical, plumbing, sheet metal and painting and decorating departments. It would provide them with practical job experience and every effort should be made to start this program in 1971.

I would also strongly urge our Regional School Committee to hold joint meetings with the school committees of Fall River, Somerset, Swansea and Westport to exchange ideas, to discuss mutual problems and to see what they can do to implement the findings and recommendations of the Massachusetts Business Task Force for School Management particularly in the areas of transportation and purchasing.

No school system in the Commonwealth can afford to overlook the findings of this Task Force of business executives who gave freely of their time to come up with specific recommendations to improve school management.

The Greater Fall River Vocational School District is indeed fortunate in the caliber of men serving on the regional school committee and, in closing this report, I would like to extend my sincere thanks and deep appreciation to them for their help and dedication in making this regional school a school that all of us can really be proud of.

Respectfully submitted,

John P. Harrington
Superintendent-Director

It is the policy of the School Department to issued no-school bulletins or announcements through Radio Stations WALE and WSAR, Fall River; WNBH and WBSM, New Bedford; WPRO, Providence, whenever driving conditions are, or seem likely to be, DANGEROUS. On doubtful mornings, the family radio should be tuned to one of the above stations for the no-school announcements. Please depend upon your radio rather than your phone for obtaining this information as telephone lines have to be kept open.

Parents must use their own judgment, in regard to whether it is suitable for their children to attend school in stormy weather.

SUPERINTENDENT'S REPORT TO THE SCHOOL COMMITTEE

It is with pleasure that I submit, to you and the taxpayers of Westport, my fourth annual report as Superintendent of the Westport Public Schools.

Included in the reports of various administrators which follow, as well as the statistical reports, is a great deal of information which should be of vital interest and concern to the citizens of the Town of Westport.

Your perusal and study of these reports is urgently solicited, as an interested citizenry is one of the essential elements in the creation and maintenance of good schools in a democracy.

The year 1970 was a very busy one and one of historical significance for the Town of Westport. In this eventful year, the school system grew by some 25%, from June to September (1600-2026). With this growth, there were "growing-pains" that generally accompany growth. Some of the highlights of 1970 follow:

MIDDLE SCHOOL

The completion and occupancy of our new Middle School, will serve to have a unifying effect on our Grades 5 through 8 students, who were formerly housed in five different buildings. The adoption of the Middle School philosophy requires a new concept of the educational program. For many years we have maintained a rather fixed curriculum at the elementary and secondary levels.

The primary emphasis in the Middle School will be on dealing with the pre-adolescent pupils as individuals with different intellectual, physical, social, and emotional needs and abilities. This will be accomplished through changes in teaching specialties, changes in pupil groupings and use of new teaching materials and techniques. Some of the exciting opportunities which the Middle School offers children are: Science Laboratories, Reading and Math Centers, Home Economics, Industrial Arts, Music, Art, Physical Education, Instructional Media Center (library), Hot Lunch Program, and modern equipment to enhance and advance teaching and learning.

In short, the Middle School will certainly provide our students with a variety of experience heretofore denied many in the age group of 10-14 year olds of Westport.

Tremendous amounts of work and time were consumed, particularly this summer, in the preparation, equipping and moving into the Middle School. Only through the coordinated efforts and cooperation of our School Committee, Middle School Building Committee, Clerical and Custodial staffs, Cafeteria Supervisor, and the administrators and faculty of the school was this herculean task completed, so that the school was officially opened to our students on the 14th of September.

KINDERGARTENS

On September 21, Westport opened its doors to children of Kindergarten age for the first time. Kindergarten centers were established at the Greenwood Park and Point Schools. Our Kindergarten enrollment is 183 pupils, divided into 8 classes of half-day sessions. The young ones, I might add, have adjusted to the school environment in fine fashion. They appear to be enjoying their indoctrination of school life.

SUMMER WORKSHOP IN ENGLISH AND SOCIAL STUDIES

This past summer, personnel in our English and Social Studies Departments spent six weeks researching, revising and otherwise planning and preparing for a new "phase-elective" curriculum, which is scheduled for implementation in September. I refer you to the High School report for more detail information on these programs.

NEEDS FOR 1971

Despite the opening of our Middle School, we still have some elementary grade enrollments of 30 plus. In order to reduce our pupil-teacher ratio to a more desirable level, I anticipate the need for the reopening of the Head School as an elementary school.

At the risk of repeating one of my statements in the 1969 report - I must remind the citizens of the community that the Middle School represents Phase I of our building program.

The High School Study Committee has been meeting and only recently selected the architectural firm of Owen F. Hackett Jr. and Associates so that we can move forward towards the preparation of preliminary plans for the adding, renovating, and eliminating of the inadequacies of our present High School. Certainly, if our present programs are saturating our available space, and if we want to implement programs that should be offered, but which are precluded by either a lack of space or a lack of the right type of space, then it is incumbent upon us to see to it that Phase II of our building program, that is the High School addition, is completed as soon as possible.

Moreover, by projecting our present Middle School enrollment figures of 662 (Grades 5-8), one can immediately ascertain the impact these four grades will have on the High School with a 500 capacity in a very short period of time.

In conclusion, I wish to state that this past year has been more time consuming than usual, because of the vast number of meetings held in conducting the many facets of school business. I wish to thank the School Committee for their fine spirit of cooperation, and devotion. Also, my thanks are extended to members of the Middle School Building Committee, who have so unselfishly given of themselves in order that the Westport Middle School will be one that truly meets the needs of the community.

The teamwork and spirit of cooperation demonstrated by our teachers and administrators are gratefully acknowledged. Also, thanks go out to our secretarial, custodial, and cafeteria staffs for the rendering of their excellent services.

For a more detailed understanding of our present educational position, may I recommend the following reports submitted by members of the department.

Respectfully submitted,

Nicholas F. Cariglia

REPORT OF PRINCIPAL OF WESTPORT HIGH SCHOOL

Mr. Nicholas F. Cariglia
Superintendent of Schools
Westport, Massachusetts

Dear Mr. Cariglia:

As Principal of Westport High School, I hereby submit my annual report:

CHANGES IN PERSONNEL

Mr. Stephen Chaffee replaced Mr. Robert St. Pierre in the Science Department. Mr. St. Pierre was transferred to the Middle School.

Mrs. Jennie Carlson replaced Mrs. Beverly Martin in Home Economics. Mrs. Martin was also transferred to the Middle School.

Mr. George Nickerson is teaching in the Math Department on a half-time basis.

Mrs. Lydia Santos replaced Mrs. Jean Gracia, who moved to the Middle School.

Miss Nancy DeFaria was assigned to handle extra-curricular vocal music.

Miss Mary Silva was assigned to teach two classes of Portuguese.

ENGLISH DEPARTMENT - Mr. Paul Larrivee

In this, my tenth or so annual report, I'm glad to be able to write that the English Department has a new curriculum which it can implement this coming school year. During the past summer, members of the English Department selected 23 courses, for which they wrote objectives, researched materials and planned activities.

Anyone interested in learning the nature of the courses, their authors, or the philosophy behind the program should examine the course guide, although, unfortunately, only seven complete copies are presently available. (The guide runs to about 130 pages and is probably the longest single document published by one branch of the school system.)

As for the acquisition of new materials, I can report that we purchased 35 cassette recorders with help from Title III NDEA funds. Their primary use was to be in the teaching of composition, but English teachers in their resourcefulness see them as almost infinitely versatile.

The only obstacle to their most profitable utilization is the lack of the right kind of space--a matter that takes me directly to the recommendation portion of this report. English teachers, as probably do all teachers, hope that they may have an opportunity to influence the nature of the design and expansion of the high school building. All proposals ought to be considered today so that we won't be exercising hindsight tomorrow. (Originally, I had written five pages on the matter of design and expansion, but I thought it would be misplaced here.)

Another proposal I'd like to make for the department, although I am reminded it is not the only department to be considered in the high school picture, is the hiring of a remedial reading teacher. The English Department is the only one that teaches all students for each of their four years, sometimes in more than one course at a time. Some of these students have dropped out of other courses because of severe reading difficulties. We place them in either a developmental reading course or a basic language skills course, where they can at least make up academic credits lost by dropping these other courses. But their problems go beyond the scope of developmental reading or basic language skills; they need remedial instruction. Such a course could be the twenty-fourth in the list of courses satisfying English requirements. Actual achievement in the other English electives, as it apparently has been in other academic areas, will be slim indeed until these students have a chance to sharpen their basic reading skills.

To reiterate progress and recommendations:

1. The English Department has developed a new curriculum which can be implemented in September.
2. With Title III NDEA funds we have acquired 35 cassette recorders to be used in a composition program.
3. The English Department asks for the opportunity to make proposals on the building expansion.
4. I recommend the hiring of a remedial reading teacher to help students who experience difficulty or failure in almost any academic venture.

I cannot end this report without once again expressing my gratitude to Mr. Cariglia and the School Committee for their approval and support of the curriculum study this past summer, and to Mr. Wood for his sympathy and cooperation in all departmental matters.

VOCATIONAL AGRICULTURE - Mr. Joseph Szala

The enrollment in the Agricultural course continues to decline, although we have several bonafide agriculture students. Four of our boys went to Kansas City to the National Convention. Our instructor, Mr. Joseph Szala, was selected to accompany and advise the group from Massachusetts. This trip is certainly a worthwhile project and was very much enjoyed.

The landscaping course did not seem to be of interest to the students and was dropped. I find it difficult to understand that there are not at least some people with interest in this field.

The Young Farmer program continues to be well received. This has been a significant contribution to Westport's largest enterprise.

Under the supervision of Mr. John Kubiski, we have instituted a work-study program that seems to be very successful.

At the present time we have twelve boys and girls who attend school for one-half a day and report to their jobs at approximately 1:00 P. M. This program calls for close cooperation with employer, school and student.

GUIDANCE - Mrs. Ethel Liebmann

The annual survey of graduates of the class of 1970 showed a distribution of graduates who had educational intentions as follows: 16 or 20% enrolled in 4 year colleges or universities; 12 or 15% enrolled in junior colleges; 14 or 18% enrolled in post-secondary schools, such as nursing or technical institutes; 1 or 1% to the military, and 37 or 46% stopped formal education upon graduation.

In order that the Guidance Department of Westport High School be acceptably reevaluated, perhaps it is necessary to provide brief answers to frequently asked questions about guidance in the schools. Scientific studies of growth, development of intelligence and other characteristics of children indicate that difficulties might not have developed, if they had been counseled with regard to their educational and personal needs. Other studies of the capabilities needed for gainful employment and of occupational trends suggest that school programs needed guidance programs to help students prepare to live satisfying and productive lives.

What is Guidance? Guidance can best be defined as the services available to each student to facilitate his academic success in school; to help him better understand his strengths and limitations; to identify his interests; to aid him in planning for and attaining realistic goals. The emphasis is always on the individual, even when students meet in groups for guidance purposes.

The elementary school program is concerned generally with the early identification of children's abilities and with those children who may be having difficulties. Counselors and classroom teachers work very closely in the elementary school. In the secondary school, the guidance program broadens to include future educational and occupational plans.

Counseling, the primary activity employed in a guidance program is the process by which a student is helped by conferences to understand himself in relation to the development and changing world.

An important part of this process may include conference with parents and teachers and the use of other school and community resources.

Leading authorities in education recommend that for an effective program there should be no more than 25-30 students per counselor.

SOCIAL STUDIES - Mr. George Salvador

During the Summer Workshop of 1970, members of the Social Studies area of the Westport Public Schools met to develop a coordinated Social Studies Program for grades 5-12. It resulted in a general course guide.

To meet the individual student's abilities, interests, and needs, the High School social studies program has incorporated the nongraded phase-elective curriculum. The following semester courses have been completed: (1) Survey of Western Civilization I & II (2) Comparative Government, (3) Comparative Political Systems, (4) U. S. History 1850-1900 (5) U. S. History 1900-1938, and (6) Contemporary America.

For the Middle School a fifth and seventh grade course of study has been completed. The 5th grade program develops a regional study of the U. S. which includes history, geography and economics. The seventh grade program develops a regional study of Europe, U. S. S. R., Asia, and North Africa. It will also emphasize history, geography, and economics.

The following teachers participated in the workshop:

Albertina Medeiros	Grade 5
Albert Deston III	Grade 7
John Mello	High School
Charles Menard	High School
George Salvador	Chairman

Amid the current concern for educational relevency, the General Course Guide completed during the workshop reflects a beginning effort to provide communication, coordination, and purpose in the Social Studies area.

MATHEMATICS - Mr. Richard Rego

The mathematics curriculum at Westport High School was examined by the mathematics faculty in order to evaluate its program and to suggest and implement revisions to update and improve its function. The study concentrated on the existing offerings at Westport High School in comparison to programs in area high schools and in regard to national trends. The study drew on the experience of the staff and on present-day demands concerning mathematical needs of both terminal and continuing students. As a result of this study, some revision implementation is now progressing and future changes are being formulated. The college-preparation mathematics programs offer both accelerated offering for the more talented student as well as less rigorous program for other college-bound students. Plans for a wider scope of college-preparation programs as well as a more meaningful program for terminal students are contemplated. The ultimate objective of these offerings is to present the most beneficial mathematics program to all students in the High School.

SCIENCE - Mr. Francisco Souza

The Science Department lost the services of Mr. Robert St. Pierre who transferred to the Middle School. Mr. Stephen Chaffee was hired to replace Mr. St. Pierre and due to this the teaching assignments were rearranged to get full use of the teaching staff. Mr. Edmie Bibeau has five teaching periods per day of Biology. Mr. Chaffee has five teaching periods per day with three different preparations, Physics, Physical Science and General Science. Mr. Souza has five teaching periods per day with three different preparations, Chemistry, Physical Science and General Science. The Science Department has had to utilize the services of Mr. Szala, the agriculture instructor, for a Physical Science Class.

A new course, Physical Science, for college-bound freshmen has been instituted. I feel this will strengthen the background of these students in preparation for the Chemistry and Physics courses taken in their junior and senior years.

The revision of the science program for the general and business students will have to wait until our next school year. This reorganization will not be possible unless the science teaching staff is increased by at least one and one-half teachers. If we have an increase in enrollment at the high school, this will present added problems.

Our athletic program hit a new low during the past year. However, with the return of John Mello and the other coaches who are teaching within the system there is some hope for the future. It is possible that there will be the formation of new leagues and Westport may be forced to consider forming new alliances.

Once again I must remind the Committee that we are to be evaluated in 1971. No postponement will be possible unless definite steps are taken on an addition to the building. For several years I have listed the inadequate facilities and suggested that steps be taken to remedy the situation.

I would not like to have the staff spend hours and hours on the self-evaluation process only to have a visiting committee reject us or put us on probation.

I believe the majority of the teachers are doing their best under far from ideal conditions.

From the reports of the various department coordinators it is evident that our faculty is striving to up-date our curriculum.

The addition of Portuguese as a third language is an improvement in this direction. Miss Silva has certainly stimulated interest in this course.

We have had many visitors come to observe our French classes so ably taught by Frank Martineau and Marcel Marchand. There seems to be more and more interest in the audio-visual approach in teaching a language.

Mr. Antone Braga continues to do excellent work with the instrumental music groups.

After a year of no vocal music we were fortunate enough to get the part-time services of Nancy DeFaria, who teaches at the Middle School. Miss DeFaria conducted an outstanding Christmas concert. She is well liked by the students, and I am sure they would profit by the opportunity to have her for more time if only she were available.

Our business department has always been one of our strongest areas, and the girls who successfully complete this program are in great demand.

We are fortunate to have such outstanding teachers as Mrs. Wanda Francis and Mrs. Patricia Marujo.

The cafeteria staff and custodians have given me wonderful cooperation. It would be difficult to imagine any improvement in this area.

This report would not be complete unless I expressed my appreciation for the assistance and guidance that has been given me by Mr. Cariglia, the members of the committee, the faculty, and all who are concerned with good education for the youth of Westport.

Respectfully submitted,

Harold S. Wood

REPORT OF PRINCIPAL OF
WESTPORT MIDDLE SCHOOL

Mr. Nicholas F. Cariglia
Superintendent of Schools
Westport, Massachusetts

Dear Mr. Cariglia:

As Principal of the Westport Middle School I hereby submit my annual report.

The Westport Middle School opened its doors on September 14th, 1970, three days later than the other Westport Schools and with an enlarged student population. When the Westport schools closed on June 19th, 1970, the student population scheduled for the Middle School was 572 and when we took inventory of our students on the first full day of classes we had 655 students, an increase of 83 students. This situation became very evident during the summer months and two additional teachers were hired.

We are now four months into our first school year and gradually overcoming the inevitable problems of a new building. This required considerable patience and cooperation from everyone involved.

Our experiences to date indicate that continued revision and updating of our curriculum and materials has highest priority. This is urgent in the immediate future. Improvements in these very crucial areas will be reflected in budget requests. This cannot occur simultaneously across all grades and all subjects because of costs; therefore, we will be concentrating our efforts in the areas of reading and mathematics.

The relative smoothness of the Middle School opening was due to the outstanding cooperation of many people.

I extend my sincere thanks to the Superintendent of Schools, and his staff, to Miss Audrey Tripp, Principal of the Milton E. Earle School, Miss Irene Boodry, Principal of the Alice A. Macomber School and Mr. Harold Wood, Principal of Westport High School, to my entire staff, to Mr. John Machado and all of his staff who so capably carried out the "Big Move", and to the very dedicated members of the School Committee and Middle School Building Committee.

Respectfully submitted,

Paul Wilber, Principal

REPORT OF PRINCIPAL OF ALICE A. MACOMBER
SCHOOL

Mr. Nicholas F. Cariglia
Superintendent of Schools
Westport, Massachusetts

My dear Mr. Cariglia:

In compliance with your request, I submit herewith my annual report.

Changes in Personnel

Due to the opening of the new Middle School many changes have taken place at the Macomber School.

Miss Janis Biszko and Miss Susan Williams were assigned to teach Grades I.

Mrs. Gladys Kirby, Mrs. Sandra Armstrong and Mrs. Glenda Broadbent were assigned to teach Grades II.

Miss Audrey Kozak and Mrs. Ruth Lewis were assigned to teach Grades III. (Due to the resignation of Miss Kozak - Mrs. Joan Manchester was assigned to teach Grade III.)

Mrs. Cynthia Rodriques is teaching one of the fourth grades.

Miss Regina Damm was granted a sabbatical year for study.

Mrs. Sandra Boudakian was granted a years leave of absence.

Mrs. Rita Bouchard was appointed a Teacher's Aide to help in Grades I and II due to an increased enrollment.

We have made a few changes in our curriculum this year.

Our second, third and fourth graders are working on reading levels and we have also grouped these children for mathematics.

Our two first grades are now on reading levels.

The teachers are doing excellent work in trying to meet the individual needs of our youngsters. I am most grateful to them for their outstanding work.

Mrs. Myrtle Stone, our remedial reading teacher has done excellent work on the reading program.

We had hoped for smaller classroom size this year, but due to the many transfers our second grades are running over thirty: Our other grades are thirty or under.

I am sure that another building will have to be opened by next September to take care of our increased enrollment.

Our Art, Music and Physical Education programs are working out very well this year.

The supervisors are able to visit classrooms on a weekly basis and we find this very rewarding.

Miss Mary Mello, our new physical education instructor, has an excellent program for the children.

Our Needs:

New Typewriter
Three Record Players
Mixer for Cafeteria
Playground Equipment
New Stage Curtain
Library Books

We are indeed fortunate in having such a loyal group of teachers, cafeteria workers, and custodians showing a conscientious interest in improving our Westport educational system.

I would like to take this opportunity to thank you, Mr. Cariglia and the School Committee for your assistance and guidance.

Respectfully submitted,

Irene D. Boodry
Principal

REPORT OF PRINCIPAL OF
MILTON E. EARLE SCHOOL

Mr. Nicholas F. Cariglia
Superintendent of Schools
Westport, Massachusetts

Dear Mr. Cariglia:

In compliance with your request, I submit herewith my report for 1970.

Our total enrollment at this time is 220, (Grades 1-4) with an average class size of 28 pupils.

Teacher changes in 1970 took place as follows:

In September, Mrs. Catherine Williams was transferred to the Middle School. Mrs. Williams served as our fifth grade teacher for 4 years, handling classes of approximately 40 pupils each year, without ever a complaint. She fulfilled her teaching duties quietly, yet effectively, and was an asset to our school.

Mrs. Hortense Sohles left us in June after two years of service. Mrs. Sohles displayed a great deal of patience and "know how" with our "slower growers". She aroused, among her pupils, an awareness of and interest in the world of nature. I wish Mrs. Sohles well, always.

Mr. Robert A. Young, one of our sixth grade teachers in 1969-1970 was also transferred to the Middle School in September. Mr. Young did especially well during his first year of teaching. He was well respected by his pupils and had a great deal to offer them. He exhibited exceptionally fine teaching potential.

Mrs. Elizabeth Moran was named Teacher of the Perceptually Handicapped and her program, while still in the early stages of development has already received state approval.

Two new teachers were added to our staff in September.

Miss Kathleen A. Quirk of Fall River, a 1970 graduate of Bridgewater State College was assigned to grade 3.

Miss Margaret A. Macedo of Dartmouth a 1970 graduate of Salem State College is teaching one of our two second grades.

Mrs. Marie A. Baker was appointed teacher aide at the Earle School in October. In addition to assisting our two first grade teachers who have large classes, Mrs. Baker is assigned to playground, basement and cafeteria supervision, and helps us with clerical duties.

In the curriculum area, a new English program for grades 1-4 was adopted in September.

This day, a "gentle lady", Miss Elizabeth R. Gifford, passed away.

Miss Gifford's 41 year career of teaching service in Westport was characterized by her little inconspicuous acts of kindness which closely identified her with her pupils.

The higher usefulness to which she rose in her lifetime of service was the result of a dedication to cherish the loving but seeming trifles of daily living.

Miss Gifford's life revealed that "her task" was:

"To love someone more dearly every day.
To help a wandering child to find his way,
To follow truth as blind men seek for light,
To do her best from dawn of day till night,
To keep her heart fit for His holy sight,
This was her task!"

Well done-----Elizabeth R. Gifford!

REPORT OF PRINCIPAL OF
GREENWOOD PARK SCHOOL

Mr. Nicholas F. Cariglia
Superintendent of Schools
Westport, Massachusetts

Dear Mr. Cariglia:

This has been a pleasantly busy year at the Greenwood Park School. A Primary School has many rewarding features and the Kindergartens have been a welcome addition. Over one hundred eager little children attend morning and afternoon classes in the two rooms. It is wonderful to see how much they have accomplished under the guidance of Miss Raczka and Mrs. Larkin.

Our new teachers, Mrs. Maureen Pride and Mrs. Connie Larkin are very efficient and most congenial. Miss Nancy Raczka transferred from first grade to Kindergarten. Not only has she done a splendid job in that grade but has also been most helpful to Mrs. Larkin and the principal, Mrs. Mary Hurley continues her good work with one of the three first grades. All the teachers are grateful for the wonderful help they receive from Mrs. Lillian Costa.

The first grades benefit greatly from the weekly visits of Mrs. Underwood, Miss Dean and Miss Mello. We hope it will be possible for these supervisors to include the Kindergartens in their schedules next year.

Mr. Joseph Bouchard deserves a special thank you for all he does for the teachers and the children.

Although there are many things one might like to have in a school, I feel the most important things are happy, interested children and dedicated teachers. These we have at Greenwood Park and for this I am most grateful.

A sincere thank you to you, Mr. Cariglia, to the ladies in the main office, and to Mr. John Kelly, for all your assistance.

Sincerely,

Laura M. Stewart

REPORT
ON THE WESTPORT POINT SCHOOL

The Westport Point School this year was for the implementation of Kindergarten classes. There are 83 kindergarteners enrolled in the kindergarten classes at this school, divided into four half-day classes. The kindergarten program at the Point School is staffed by Miss Nancy Chadwick, Mrs. Jeanne MacEachern, and Mrs. Dianne Vincent. Several kindergarten mothers are being utilized as Volunteer Aides, under the supervision and direction of the teacher.

REPORT OF FEDERAL PROJECTS DIRECTOR

Mr. Nicholas F. Cariglia
Superintendent of Schools
Westport, Massachusetts

Dear Mr. Cariglia:

I hereby submit my annual report on Federal Aid Projects in the Westport Public Schools.

During the 1970 school year, we were successful in obtaining our first entitlement under Public Law 874 "Aid to Federally Affected Areas." This sum, \$18,721, was a result of the number of children in our schools whose families are service connected or employed on government installations. All forms for a continuation of this project during the next school year have been completed and forwarded to state and federal agencies.

A grant approved by the Massachusetts State Department of Education, under Title I of the Elementary and Secondary Education Act of 1965, enabled us to offer a six week summer remedial reading program. This program again received an enthusiastic response, as many children took advantage of the summer session to reinforce and improve their reading skills.

A National Defense Education Act Program, Title III, which had received preliminary approval at the end of last year was funded during 1970. This grant provided tape cassettes to assist in individualizing the English curriculum at the High School.

Our Title II program to provide for the improvement of library resources was approved for \$1,201.55. These funds provide for the purchase of supplementary materials in order to stimulate interest in reading.

It has been my pleasure during the school year to meet and exchange information with public school officials in other systems. As a trend toward cooperative funding, involving more than one local school system, seems to be developing, these meetings and discussions of needs and resources should be beneficial in the future.

I would like to thank and express my sincere appreciation to the members of the School Committee, the administrators, and the teachers for their cooperation during the year. A special thanks to Mrs. Myrtle Stone for her excellent work with our remedial classes, and to those parents who again volunteered the transportation needed to make our summer program successful.

Respectfully submitted,

John B. Kelly
