Resolution
concerning
Nebraska

The following Resolutions were offered at the Meeting
Whereas - A bill has passed the Senate and is now pending in the House of Representatives in Congress for the organization of the territories of Kansas & Nebraska, repealing that portion of the Missouri Compromise so called, which forever prohibited Slavery in all of the territory acquired from France and lying north of 36 deg. 30m North latitude and not included within the limits of the State of Missouri

Therefore Resolved By the people of Westport in annual town meeting assembled that we regard the abrogation of that portion of the compromise, which throws open to the incursion

1854

of Slavery a territory which has been by solemn compact forever consecrated to freedom as a wanton violation of the plighted faith of the nation - a gross moral & political wrong particularly towards the free laborers of the Union a measure fraught ^{with} national injustice & perfidy alike repugnant to every sentiment of honor & justice and against which we do most solemnly & earnestly remonstrate

Resolved That we view with regret & detestation, this attempt on the part of Slave extensionists to break over the land marks of freedom and pollute with slavery the soil of Kansas & Nebraska in violation of their own solemn covenant of more than thirty years standing - Doubtless bare and treacherous does this act appear on their part in their first securing to themselves during this long period all the political power & advantages accruing from another portion of the same compact in the admission of three Slave States into the Union taken from this territory acquired from France. Such an act of fraud and duplicity - so subversive of national honor & justice so designed to destroy that mutual confidence which should exist between the States so violation of every principle of equity - we earnestly hope will never receive the sanction of an American Congress

Resolved That in relation to the great question of Slavery and its prohibition in the territories - Whether as presented by the bill now pending in Congress or its other bearings on the present prospective welfare of our Country we desire no action on the part of Congress but such as we believe legitimately results from the carrying out of those cardinal principles

1854

of the Declaration of Independence and the Constitution of the United States as clearly indicated in the Jefferson Proviso of 1784 and the ordinance of 1787 the latter abolishing Slavery forever in the northwest territory and the still subsequent acts of Congress prohibiting by the several prohibitions the African Slave trade and it is only we believe by a rigid adherence to those principles & acts (sanctioned & approved as they have been by the fathers of our republic) in the present and future legislation by the general government that this agitating question can be settled and made a "finality" our Country maintain a true and consistent position the inalienable rights of man secured and the integrity of the Union be preserved

The foregoing preamble and resolutions were unanimously adopted and it was voted that they be entered on the Records of the Town and an attested copy be forwarded to each of the Senators in Congress from this State and to the Representative from this Congressional district
