The Committee appointed to investigate the subject of
 Report procuring a School house lot in Dist. No. 17. and propose a
 of plan of building a school house and estimate the probable
 Locating cost of the same report as follows.
 Committee

We have visited the locality
 and conferred with the inhabitants and are united in
 the opinion that they need a better school house, and
 have selected for the lot a half acre in the south east
 part of the corner lot east of Rufus Wordell belonging
 to Sershom Wordell which the owner is not willing to sell
 for less than Eight Hundred Dollars.

There are other sites that in
 our opinion are nearly as good belonging to other persons
 but the owners are not willing to sell them for a school
 house lot.

We believe a one story house will accommodate
 the children at present but according to the information
 received from those that reside in that Dist. the time is not
 far distant when a house to accommodate a graded
 school will be needed.

We have ascertained that a house
 24x34 with 10 foot posts, and furnished ready for a
 school will probably cost about 1200 dollars and a
 house the same size on the ground with 20 foot posts
 leaving the upper room unfinished will probably cost
 about 1700 dollars. If the town after hearing the testimonies
 of those that are interested in having a graded school
 approve of a two story house we would recommend that
 the upper story remain unfinished until needed for a
 school, and we also recommend hard wood floors and
 school furniture.
