

rendering the offal from said swine sterile and such offal was removed from said premises over public ways to a neighboring farm, where it is rumored, they were fed to swine.

Such swine could not have been lawfully removed from the premises where Foot and Mouth disease was known to exist without the knowledge and consent of the Bureau of Animal Industry or its representatives.

The re-introduction of Foot and Mouth disease into this town has resulted in the destruction of a valuable herd of cattle, at much expense to the state, has caused a further imposition of hardships on owners of cattle and may seriously reduce the milk supply of two large cities, Fall River and New Bedford, in the near future.

Therefore, we, the citizens of Westport, respectfully ask the Governor of this State to cause a thorough investigation of this particular case of Foot and Mouth disease to be made, in order to place the responsibility for its re-introduction into this town; to trace the disposal of the offal; and take such other action that will prevent a repetition of the same methods.

Voted: To adopt the foregoing resolution and that copies be sent to the Fall River Evening News, the New Bedford Standard, his excellency, the Governor of the Commonwealth, the United States Department of Agriculture at Washington, D. C. and the Bureau of Animal Industry of Massachusetts.
