The undersigned respectfully submit the following report as required by Article First of the By-laws:

Edward L. Macomber was authorized to sell lots in said cemetery and write deeds for the same. There are now for sale 8 centre at \$25.00 each, and we would recommend that the seven front lots be \$25.00 each.

There have been two centre lots and one front lot sold during the year.

The following resolution was offered by Alexander Walsh:

Resolution.

Resolved - That we, the citizens of the Town of Westport, in town meeting assembled do hereby protest against the methods employed by representatives of the Bureau of Animal Industry in handling the recent outbreak of Foot and Mouth disease in Fall River, Mass., for the following reasons:

On or about March 5th Foot and Mouth disease was found to be prevalent in Fall River, Mass. on two farms near the Rhode Island boundary line. On one farm 175 swine were exposed to infection; said swine were therefore transported into Westport for slaughter, over several miles of public highways in Fall River and Westport, on a dray which was not a proper conveyance for such swine; not being of sufficiently tight construction to prevent the excreta from such swine dropping upon the public highways and infecting them with the germs of such disease.

Said swine while awaiting slaughter were permitted to be sheltered in the basement of a barn, the upper portion of which was occupied as a stable for six cows at the time, thus exposing said cows to the infection.

About March 18th these cows were found to be affected with Foot and Mouth disease and were duly slaughtered the following day March 19th.

No facilities existed at said slaughtering premises for

rendering the offal from said swine sterile and such offal was removed from said premises over public ways to a neighboring farm, where it is rumored, they were fed to swine.

Such swine could not have been lawfully removed from the premises where Foot and Mouth disease was known to exist without the knowledge and consent of the Bureau of Animal Industry or its representatives.

The re-introduction of Foot and Mouth disease into this town has resulted in the destruction of a valuable herd of cattle, at much expense to the state, has caused a further imposition of hardships on owners of cattle and may seriously reduce the milk supply of two large cities, Fall River and New Bedford, in the near future.

Therefore, we, the citizens of Westport, respectfully ask the Governor of this State to cause a thorough investigation of this particular case of Foot and Mouth disease to be made, in order to place the responsibility for its re-introduction into this town; to trace the disposal of the offal; and take such other action that will prevent a repetition of the same methods.

Voted: To adopt the foregoing resolution and that copies be sent to the Fall River Evening News, the New Bedford Standard, his excellency, the Governor of the Commonwealth, the United States Department of Agriculture at Washington, D. C. and the Bureau of Animal Industry of Massachusetts.
