Recommendations of the Committee of Nine chosen under Article 6 of the Warrant of the Annual Town Meeting of 1923 to investigate the School Situation in the Town of Westport.

It was voted to recommend the indefinite postponement of action on Article 7 because:

3. A two-room building is inadequate.
4. Action to be taken on this School under Article 12.

It was voted to recommend the indefinite postponement of action on Article 8 because:

1. Stated amount of money limits the action of the town.

It was voted to recommend the indefinite postponement of action on Article 9 because:

1. Stated amount of money limits the action of the town.
2. The present building and site are unsuitable.

Recommendations of the Investigation Committee under Article 6.

Greenwood Park.

1. It was voted to recommend the erection of at least a four-room building at or near Greenwood Park to be built on the straight unit system.
2. It was voted to recommend the purchase of three acres of land belonging to David E. Sanford and situated south of the track - the cost of same being \$450.
3. It was voted to recommend the appropriation of \$28,000 for the purchase of land, erection of building, installing of heating and plumbing systems, equipment of school.
4. Reasons for the recommendations of at least a four-room school building at Greenwood Park.
 - a. A four-room building would accommodate all the children of the first six grades in that section of the town.
 - b. A four-room building at Greenwood Park would eliminate the over-crowding of the Factory and North Westport Schools.
 - c. A four-room building at Greenwood Park would cut the cost of transportation in that section for the first six grades.

1. It was voted to recommend the erection of a two-room School-house at or near Brownell's Corner to be built on the straight unit system and equipped with jacketed stoves.

4. A two-room building at Booth's corner would cut the cost of transportation of the six lower grades in that section of the town.

These recommendations if carried out, will make a material reduction in transportation, the minimum being \$3000 per year, as estimated by the Committee, which would more than cover the interest charge on the total investment of \$48,000.

It is recommended that the sense of this committee is that we should as far as practicable strive for further elimination of all branches of transportation except High School, including the elimination of transportation of the seventh and eighth grades.

The Committee met three evenings; March 16, 20 and 22 and also visited Westport Factory School, Greenwood Park and Lakeside City. The Committee had Mr. Kingsley of the State Board of Education and Superintendent Hill before them to give information.
