Year 5 Annual Report

Massachusetts Small MS4 General Permit Reporting Period: July 1, 2022-June 30, 2023

Please DO NOT attach any documents to this form. Instead, attach all requested documents to an email when submitting the form. Also ensure any websites included on this form are to publicly accessible sites

Unless otherwise noted, all fields are required to be filled out. If a field is left blank, it will be assumed the requirement or task has not been completed. Please ONLY report on activities between July 1, 2022 and June 30, 2023 unless otherwise requested.

Part I: Contact Information

annual Requirements	
Public Education and Outreach*	
Annual message was distributed encouraging the proper management of pet waste, including noting existing ordinances where appropriate	any
Permittee or its agents disseminated educational material to dog owners at the time of issuance or renewal of dog license, or other appropriate time	
Provided information to owners of septic systems about proper maintenance in any catchment that discharges to a water body impaired for bacteria	
☐ This is not applicable because there are no septic systems present	
* Public education messages can be combined with other public education requirements as applicable (Appendix H and F for more information)	(see
Optional: If you would like to describe progress made on any incomplete requirements listed above or proving additional details, please use the box below:	vide
Optional: Use the box below to provide any additional information you would like to share as part of your self-assessment:	

Town of Westport	Page 4

Have you made any changes to your lists of receiving waters, outfalls, or impairments since the NOI was

submitted?

YesNo

Part III: Receiving Waters/Impaired Waters/TMDL

If yes, describe below, including any relevant impairments or TMDLs:
The original number of outfalls has been modified on the basis of field investigations conducted over the past several years. The town has identified and investigated 199 potential outfalls (including road cuts & culverts) within the MS4 jurisdictional area. Of these 101 have been classified as "excluded" per permit criteria, resulting in a total number of MS4 outfalls of 98.

Part IV: Minimum Control Measures

Please fill out all of the metrics below. If applicable, include in the description who completed the task if completed by a third party.

MCM1: Public Education

Below, report on the educational messages completed during this reporting period. For the measurable goal(s) please describe the method/measures used to assess the overall effectiveness of the educational program. BMP:Stornwater Pollution Prevention Guide Message Description and Distribution Method: Describes different best management practices to prevent stormwater pollution. Posted in the website Targeted Audience: Residents, Commercial facilities, Business Responsible Department/Parties: DPW Measurable Goal(s): Number of viewers (unknown) Message Date(s): Was this message different than what was proposed in your NOI? MCM2: Public Participation	
Describe the opportunity provided for public involvement in the development of the Stormwater Mar Program (SWMP) during this reporting period :	nagement
The SWMP is available online for public comment.	
Was this opportunity different than what was proposed in your NOI? Yes ○ No ●	

Describe any other public involvement or participation opportunities conducted during this reporting period The Westport River Watershed Alliance (WRWA) had an event named "River Day" in June which included public participation and outreach/engagement about the Westport River.				
MCM3: Illicit Discharge Detection and Elimination (IDDE)				
Sanitary Sewer Overflows (SSOs)				
Check off the box below if the statement is true. This SSO section is NOT applicable because we DO NOT have sanitary sewer				
Below, report on the number of SSOs identified in the MS4 system and removed during this reporting period.				
Number of SSOs identified: 0				
Number of SSOs removed: 0				
MS4 System Mapping				
Optional: Provide additional status information regarding your map:				
The Town has mostly completed updating the outfalls, initial catchment, interconnections, treatment systems (BMPs), catch basins, manholes and pipes. The Town completed mapping receiving waters and pollutants association with outfalls				
Screening of Outfalls/Interconnections If conducted, please submit any outfall monitoring results from this reporting period. Outfall monitoring results should include the date, outfall/interconnection identifier, location, weather conditions at time of sampling, precipitation in previous 48 hours, field screening parameter results, and results from all analyses. Please also include the updated inventory and ranking of outfalls/interconnections based on monitoring results.				
 No outfalls were inspected 				
 The above referenced outfall screening data is attached to the email submission The above referenced outfall screening data can be found at the following publicly available website: 				
https://massmaritime.maps.arcgis.com/apps/webappviewer/index.html?id=ee16aa4641cf490dba88636dc7809f61				
Below, report on the number of outfalls/interconnections screened during this reporting period.				
Number of outfalls screened: 29

Town of Westport

Date update was completed (due in year 3): 9/11/2012 Website of ordinance or regulatory https://www.westport-ma.com/sites/g/files/vyhlif7356/f/ pages/zoning by-laws 5.3.23 atm approved 1 0.pdf mechanism: **As-built Drawings** Below, report on the number of as-built drawings received during this reporting period. Number of as-built drawings received: 3 Optional: Enter any additional information relevant to the submission of as-built drawings: **Street Design and Parking Lots Report** Below, describe any changes made or planned to be made to local regulations and guidelines based on the report completed in Year 4: The Town developed a report assessing current street design, parking lot guidelines, and other applicable local requirements that impact the creation of impervious cover by Year 4 of the 2016 MS4 Permit. This report focuses on highlighting current impediments to using low impact design options, and detailing improvements for promoting the use of such options. This report is available as an email attachment. **Green Infrastructure Report** Below, describe progress towards making green infrastructure practices allowable based on the report completed in Year 4: In addition to local guidelines regarding the creation of impervious cover, the Town developed a report assessing existing local regulations to determine how to promote the implementation of green infrastructure as a part of the Year 4 requirements of the Permit. The green infrastructure report is provided as an email

Page 12

Retrofit Properties Inventory

Below, list remaining permittee-owned properties that could be modified or retrofitted with BMPs to mitigate impervious areas (must maintain a minimum of 5 sites in inventory until less than 5 sites remain):

Activities Planned for Next Reporting Period

Please confirm that your SWMP has been, or will be, updated to comply with all applicable permit requirements including but not limited to the year 6 requirements summarized below. (Note: impaired waters and TMDL requirements are not listed below)

Yes, I agree ⊠

Annual Requirements

- Annual report submitted and available to the public
- Annual opportunity for public participation in review and implementation of SWMP
- Keep records relating to the permit available for 5 years and make available to the public
- Properly store and dispose of catch basin cleanings and street sweepings so they do not discharge to receiving waters
- Annual training to employees involved in IDDE program
- Update inventory of all known locations where SSOs have discharged to the MS4
- Continue public education and outreach program
- Update outfall and interconnection inventory and priority ranking and include data collected in connection with the dry weather screening and other relevant inspections conducted
- Implement IDDE program
- Review site plans of construction sites as part of the construction stormwater runoff control program
- Conduct site inspection of construction sites as necessary
- Inspect and maintain stormwater treatment structures
- Log catch basins cleaned or inspected
- Sweep all curbed streets at least annually
- Continue investigations of catchments associated with Problem Outfalls
- Implemented SWPPPs for all permittee owned or operated maintenance garages, public works yards, transfer stations, and other waste handling facilities
- Review inventory of all permittee owned facilities in the categories of parks and open space, buildings and facilities, and vehicles and equipment; update if necessary
- Review O&M programs for all permittee owned facilities; update if necessary
- Implement all maintenance procedures for permittee owned facilities in accordance with O&M programs
- Implement program for MS4 infrastructure maintenance to reduce the discharge of pollutants
- Enclose all road salt storage piles or facilities and implemented winter road maintenance procedures to minimize the use of road salt
- Review as-built drawings for new and redevelopment to ensure compliance with post construction bylaws, regulations, or regulatory mechanism consistent with permit requirements
- Inspect all permittee owned treatment structures (excluding catch basins)
- Identify additional permittee-owned properties that could potentially be modified or retrofitted with BMPs to reduce impervious areas so that the permittee maintains a minimum of 5 sites in their inventory, until such a time when the permittee has less than 5 sites remaining

ovide any additional details on activities planned for permit year 6 below:
